

## Pre-school Curriculum – 2018

---

Our Learning Programme is designed to encourage the children to investigate, discover, manipulate with Inquiry. The resources provided allow for the widest possible curriculum: Literacy, Numeracy, Science, Art, Cultural Studies, Physical Education and Music. The environment is regularly accessed and enriched in response to the needs and interests of the children. Teachers plan carefully to integrate as many curriculum areas as possible during the week and to extend each child's experiences and learning.
